## CRICKET PRODUCTS

### WHOLE CRICKET POWDER

A fine, light brown powder with a roasted nut flavor and a minimum of 64% protein. Excellent for baked goods, pasta, and inclusion in pet food.

**FOOD GRADE**

**MOQ:** 450kg

**SIZE:** < 300 Microns

### DEFATTED CRICKET POWDER

A similar profile to the Whole Cricket Powder, with a minimum of 74% protein and a finer texture.

**FOOD GRADE**

**MOQ:** 550kg

### TEXTURIZED CRICKET PROTEIN CHUNKS

A combo of cricket powder and your choice of pea or soy protein creates an excellent dehydrated meat substitute. These large chunks are easily rehydrate for various uses.

**FOOD GRADE**

**MOQ:** 550kg

### TEXTURIZED CRICKET PROTEIN CRUMBLES

Similar to the texturized chunks but smaller in size. It has a tofu-like texture when rehydrated, making a perfect meat alternative.

**FOOD GRADE**

**MOQ:** 550kg

### WHOLE, DRIED CRICKETS

Full crickets have a nutty, slightly earthy flavor and no odor due to the high quality feedstock. Slow dried to preserve proteins. No legs or antenna.

**FOOD GRADE**

**MOQ:** 550kg
